Dear Mr. Wiese:

This is to confirm our conversation last week in regards to a sampling event that the United States Environmental Protection Agency is planning to perform at your property on May 27, 1994. The event will involve the collection of shallow soil samples within the fenced area near your plant at 1200 Queeny Avenue in Sauget sometime between 9:00 and 11:00AM.

Once the soil samples have been analyzed and the laboratory data validated, you will be sent a copy of the results. Please feel free to call me at (217) 782-6760 if you have any concerns.

Thank you for your cooperation.

Sincerely,
